

VAN SEUMEREN OFFSHORE

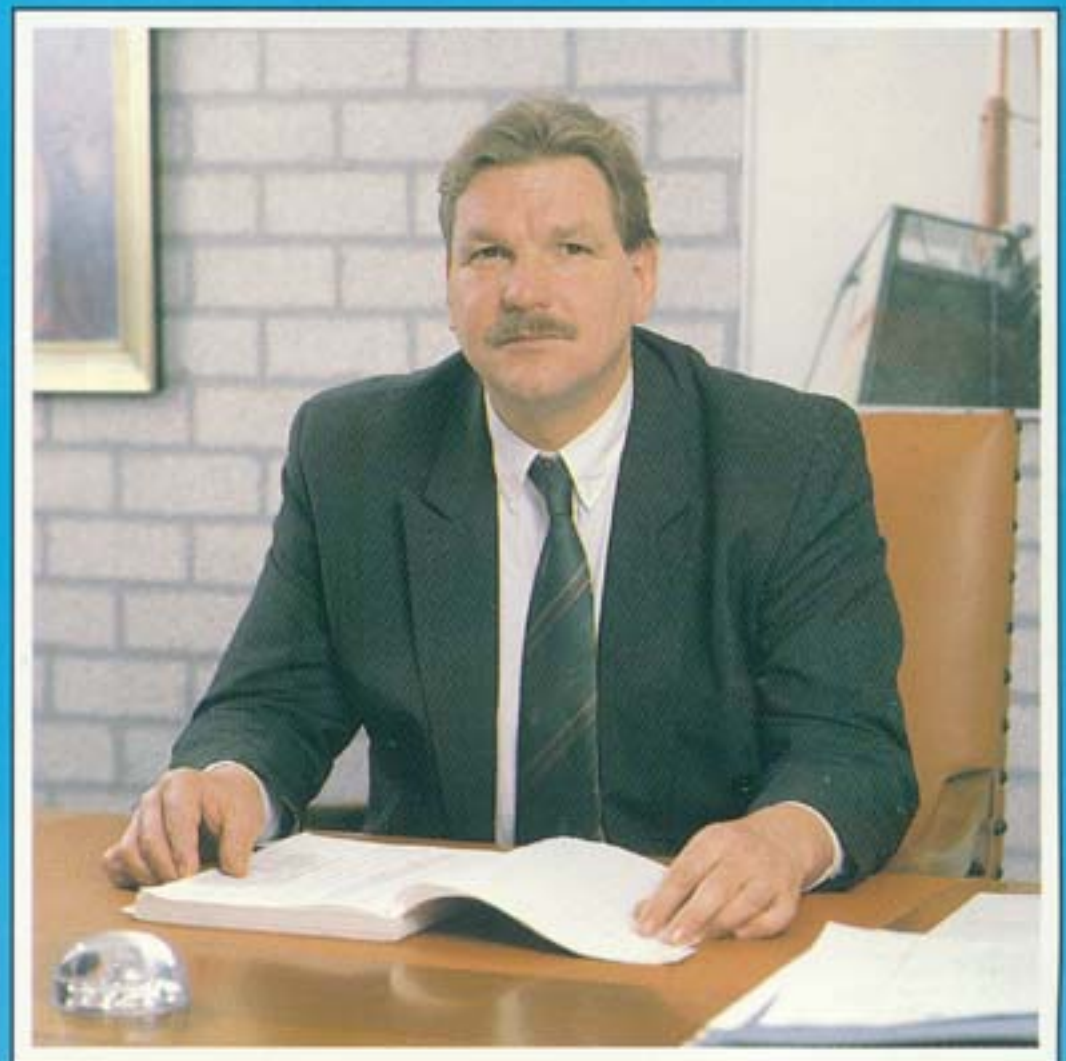

Van Seumeren Holland B.V. situated in De Meern, Holland, known all over the world for its on-shore activities, last year started its activities off-shore.

It is therefore that we want to introduce ourselves.

Van Seumeren Holland B.V. has been active in the field of vertical and horizontal transport since April 1966. At this moment, 25 years later, the company possesses amongst all other equipment, more than 100 cranes and it gives employment to more than 280 employees.

In addition to the De Meern Head Office, the company has subsidiaries in the Rotterdam area, at the Hoogovens and in Sluiskil and with our foreign subsidiaries - Belgium, France, Germany, England, Canada, Singapore and Malaysia - we can ensure all of our customers optimum service.

All our cranes, operating off-shore, are covered by the Lloyd's security qualifications.

President: J.F. van Seumeren

Our latest investment the *Demag CC 4800*, which has started its activities in December 1991 in Indonesia.

Capacity off-shore: max. 4.880 ton/meter

11.700 ton/meter (including superlift)

Capacity on-shore: 800/1600 tons (including superlift)

Modern Equipment

- Mobile lattice boom cranes
